Free yourself from messy wires and take charge with our range of **WIRELESS POWER BANKS THAT ARE TRAVEL-FRIENDLY AND EASY TO USE**

Wireless powerbanks wirelessly charge wireless-charging-enabled smartphones without the need for the phone to be plugged into the power bank or the power bank to be plugged into a power supply. Simply attach the phone to the suction pad or place the phone on top of the power bank and it will begin powering up. For smartphones that are not compatible with wireless chargers, they can be recharged via a micro USB or lightning connector cable, as would be the case with any standard power bank.

Inspired by Africa's iconic cast iron pot, Andy Cartwright has recreated a modern, quirky masterpiece, designed to enhance your living and working space.

This multi-purpose utility bowl is small enough for a large mug of coffee or even a cocktail and big enough to use as a snack bowl, dessert or soup dish.

What will you do with your Poykie today?
